STRATEGIC REPORT

Registered No. 03319365

The directors present their strategic report for the year ended 30 June 2016.

**Review of the business and key highlights**

As the primary purpose of the group is to act as an investment management business, references are made to the net assets and results of the group.

As at 30 June 2016 the group had net assets of £3.0 million (2015: £4.3million) or 37 pence per ordinary share (2015: 54 pence per share). These figures have been arrived at after the inclusion of a further carried interest provision of negative £934,000 (or 11.64 pence per share) (2015: £144,000).

In the year to 30 June 2016, the loss after tax was £1.340 million (2015: £212,000).

The board consider that the most appropriate key performance indicator for the group is the fair valuation of its assets and the net asset per share reflected in the carrying values. The payment of the carried interest is dependent upon the realisation of the individual assets being at values which are, at least, equal to the values stated in the accounts as at 30 June 2016.

Net asset values per Avanti share by category

<u>Investment</u>	<u>Carrying value as at 30 June 2016</u> <u>Pence per share</u>	<u>Carrying value as at 30 June 2016</u> <u>£m</u>
Mblox (including loan)	27.6	2.2
Other net current assets (including cash)	15.0	1.2
Total	42.6	3.4

Net current assets of £1,203,000 include £1,191,000 of cash.

**Future business developments and investing policy**

**Deregistering for AIM Listing**

The company resolved through a Shareholders' Meeting held on 26 September 2016, to deregister its shares from AIM. This was effected on 4 October 2016.

**Investment objective**

The company's investing policy is to pursue its objectives through two complementary activities.

- Its investment operation, which acquires interests in technology and trading businesses; and
- Its consultancy operation, which offers a business development service, to develop the investee business until an exit opportunity arises.

The company's current intention is not to invest in any new investments but to support its existing investment portfolio.

**Assets or companies in which the company can invest**

The companies in which the company can invest are in technology and trading businesses.

In October 2006, the company announced that it would not make any new investments, but would instead concentrate on maximising the value of the investments currently held.

**Means by which the investing policy will be achieved**

The company's investment objective is to pursue its policy of maximising the value of its investments and, at the appropriate time, to realise such investments. The company also, where appropriate, provides financial support to the existing portfolio.

**Whether investments will be active or passive investments**

Investments in portfolio companies can be either active or passive.

The investment manager formally monitors the company's investments on an ongoing basis. The investment manager provides a business development service, to develop the investee business until an exit opportunity arises.

**Holding period for investments**

As the company has no fixed life, no time limits are set. As a matter of investing policy generally any individual holding periods will vary to achieve the best value from each investment.

**Spread of investments and maximum exposure limits**

The company's strategy is not to set maximum exposure limits per investment. However, as investments have been sold and monies returned to shareholders, the spread of investments has reduced and, as a result, the portfolio has become more concentrated.

**Policy in relation to gearing**

The directors may exercise the powers of the company to borrow money and to give security over its assets. The company's articles of association restrict the borrowings to an aggregate principal amount so that it does not, without shareholder approval, exceed the greater of (a) £5,000,000 or (b) an amount equal to three times the adjusted capital and reserves.

The directors currently have no intention to exercise any borrowing powers.

STRATEGIC REPORT (CONTINUED)

Registered No. 03319365

**Future business developments and investing policy (continued)**

**Policy in relation to cross-holdings**

The company does not have a formal policy on cross-holdings.

**Investing restrictions**

Whilst the company's current intention is not to invest in any new investments, this is not a formal restriction in the company's investing policy.

There are no restrictions on the ability of the company to take controlling stakes in portfolio companies, but the company ensures that there is sufficient separation between the company and each portfolio company.

In addition, the company also ensures that there is sufficient separation between each portfolio company by ensuring that there is no:

- cross-financing, including the provision of undertakings or security for borrowings from one portfolio company to another;
- common treasury functions; or
- sharing of operations.

Other than these restrictions set out above, and the requirement to invest in accordance with its investing policy, there are no other investing restrictions.

**Returns and Distribution Policy**

It is anticipated that returns from the company's investment portfolio will be in the form of capital upon realisation or sale of its investee companies.

When realisations are made, the directors currently intend to use the proceeds to return monies to shareholders in the most efficient manner available.

**Principal risks and uncertainties**

Through its board of directors, the group evaluates on an ongoing basis the risk appetite of the group after taking into account all relevant factors and circumstances. The principal risks and uncertainties facing the business and the group's financial instruments are investment risk, interest rate risk, liquidity risk and credit risk (see note 21). With the exception of the investment in Mblox, the group does not have a material exposure to foreign currency risk.

**Investment risk**

Investment risk includes investing in companies that may not perform as expected. The group's investment criteria focus on the quality of the business and the management team of the target company, market potential and the ability of the investment to attain the returns required within the time horizon set for the investment. Due diligence is undertaken on each investment. The group regularly reviews the investments in order to monitor the level of risk and mitigate exposure where appropriate.

**Interest rate risk**

Interest rate risk is the change that an unexpected change in the interest rates will negatively affect the value of an investment. Certain investee companies borrow in currencies to match the denomination of fixed and floating rates of interest to generate the desired interest rate profile and to manage their exposure to interest rate fluctuation.

**Liquidity risk**

The group's policy is to finance its operations and expansion through working capital and, in the case of investing in target companies, to raise an appropriate level of acquisition finance.

The risk would be that the company would not be able to finance expansion through working capital.

STRATEGIC REPORT (CONTINUED)

Registered No. 03319365

**Principal risks and uncertainties**

**Credit risk**

There are no significant concentrations of credit risk within the group. The maximum credit risk exposure relating to financial assets is presented by the carrying value as at the balance sheet date.

**Portfolio review**

**Mblox**

Mblox Inc (“Mblox”) is the largest independent application-to-person (A2P) mobile messaging provider in the world, trusted by more companies to carry their mission-critical traffic than any other service. As the industry’s most experienced Tier One SMS aggregator, mblox specialises in the unique demands of large-scale mobile messaging programs and are known for providing reliable, uncompromising connections. By creating positive brand experiences, Mblox helps clients build profitable relationships with their customers.

Mblox offers carrier-based and over-the-top (OTT) mobile messaging services. The carrier-based services are based on application-to-person messaging between brands and mobile devices and include SMS (Short Message Service), MMS (Multimedia Messaging Service). OTT services are delivered via smartphone mobile applications and include rich push notifications and in-app messaging.

As announced in July 2016, Mblox was sold to CLX U.S. Holdings for a total consideration of \$117 million. The realisation proceeds attributable to the group is \$3.7 million. Of this amount, approximately \$919,000 is in a retention escrow account. Under the terms of the agreement reached between CLX and Mblox, subject to any claims that the purchaser may have, the Escrow retention account will be distributed in January 2018, being 18 months following completion.

The \$2.8million which has been currently received. This sum has already been converted to sterling at a rate of £1 = \$1.32 resulting in proceeds of £2.2m.

As far as the balance sheet is concerned, the carrying value as at 30 June 2016 has been included to reflect the realisation proceeds from the sale of Mblox including the redemption premium on the repayment of the secured loan included within fixed asset investments. Accordingly, the balance sheet shows an amount of £2.817m in respect of the total Mblox investment.

**Legacy portfolio**

In relation to the remainder of the legacy investments in the group’s portfolio, the board continues to seek ways of maximising value to the group. As at 30 June 2016, the legacy portfolio had either been sold or written down to a negligible carrying value

STATEMENT OF CORPORATE GOVERNANCE

Registered No. 03319365

**COMPLIANCE WITH THE 2014 UK CORPORATE GOVERNANCE CODE**

The company is not required to comply with the 2014 UK Corporate Governance. Set out below are the corporate procedures that have been adopted.

**THE BOARD**

The Board of Avanti Capital plc is the body responsible for the group's objectives, its policies and the stewardship of its resources. At the balance sheet date, the board comprised three directors being Richard Kleiner with Philip Crawford and William Crewdson being the independent directors.

The Board has six board meetings during the year. The two independent directors sit on both the audit and the remuneration committees, namely Philip Crawford and William Crewdson. Philip Crawford is the chairman of both the audit committee and the remuneration committee. The terms of reference of both these committees have been approved by the Board.

**REMUNERATION COMMITTEE**

The committee's responsibilities include the determination of the remuneration and options of other directors and senior executives of the group and the administration of the company's option schemes and arrangements. The committee takes appropriate advice, where necessary, to fulfil this remit.

**AUDIT COMMITTEE**

The committee meets twice a year including a meeting with the auditors shortly before the signing of the accounts. The terms of reference of the audit committee include: any matters relating to the appointment, resignation or dismissal of the external auditors and their fees; discussion with the auditors on the nature, scope and findings of the audit; consideration of issues of accounting policy and presentation; monitoring the work of the review function carried out to ensure the adequacy of accounting controls and procedures.

**NOMINATION COMMITTEE**

The company does not maintain a nomination committee. Any board appointments are dealt with by the Board itself.

**INTERNAL CONTROL**

The Board is responsible for the group's system of internal control and for reviewing the effectiveness of the system of internal control. Internal control systems are designed to meet the particular needs of a business and manage the risks but not to eliminate the risk of failure to achieve the business objectives. By its nature, any system of internal control can only provide reasonable, and not absolute, assurance against material misstatement or loss.

**INTERNAL AUDIT**

Given the size of the group, the Board does not believe it is appropriate to have a separate internal audit function. The group's systems are designed to provide the directors with reasonable assurance that problems are identified on a timely basis and are dealt with appropriately.

**RELATIONS WITH SHAREHOLDERS**

Aside from announcements that the company makes periodically to the market, the Board uses the annual general meeting to communicate with private and institutional investors and welcomes their participation.

**GOING CONCERN**

On the basis of the current financial projections, the directors have a reasonable expectation that the company and the group have adequate financial resources to continue in operational existence for the foreseeable future. The directors accordingly have adopted the going concern basis in the preparation of the group's accounts. See page 9.

**DIRECTORS' REPORT**

Registered No. 03319365

The directors present their report with the audited consolidated financial statements for the year ended 30 June 2016.

**RESULTS AND DIVIDENDS**

The group's loss for the year before taxation of the group amounted to £1.941 million (2015 – £212,000) and the loss for the year after taxation of the group amounted to £1.941 million (2015 – £212,000). This was equivalent to a loss of 24.18 pence per share (2015 – 2.64 pence per share) attributable to shareholders of the parent. The net assets of the group were £2.4 million (2015 - £4.3 million) attributable to the shareholders of the parent.

The directors do not recommend dividend payment (2015 – £Nil ) for the year ended 30 June 2016.

**PRINCIPAL ACTIVITY AND REVIEW OF THE BUSINESS**

The company's principal activity during the year continued to be that of an investment management and ancillary services company. Further details are set out in the Strategic Report on pages 3 to 6.

The Board consider that the most appropriate key performance indicator for the group is the fair valuation of its assets and the net asset per share, as set out on page 3.

The various categories of risk are proactively managed to ensure exposure to risk is mitigated whenever possible and appropriate. The board has assessed that the Key Performance Indicator that is the most effective measure of progress towards achieving the group's strategies and as such towards fulfilling the group's objectives is the net asset value per share.

**FUTURE BUSINESS DEVELOPMENTS AND INVESTING POLICY**

This has been fully described in the Strategic Report on page 3 to 6.

**DIRECTORS AND THEIR INTERESTS**

P J Crawford  
R H Kleiner  
W A H Crewdson

The company has not granted qualifying third party indemnities as defined in Section 234 of Companies Act 2006 on behalf of any of its directors during the year.

The company and its subsidiaries entered into an investment advisory agreement with Odyssey Partners Limited ("OPL") in October 2008, which was amended in November 2008. The principal terms of the investment advisory agreement are that OPL, a company controlled by Richard Kleiner, provides all of the functions previously carried out by the executive management team in respect of the group's portfolio. OPL bears all of its internal overheads and was paid a fee of £158,400 per annum which is equivalent to 1.97% of the company's asset value as at 30 June 2016. In addition, OPL has a carried interest by reference to the realisations achieved in relation to the assets. The threshold, after which the carried interest becomes payable, is based on realisations of not less than £6.6m or 82.5 pence per share (based on the issued share capital of the company on 30 November 2008). There is a hurdle of 6% per annum to protect the company from the effects of time in relation to the realisation of the portfolio. Once realisations are achieved in excess of £6.6 million, provided that the return to the company would be at least that amount together with the hurdle, then in relation to any excess, OPL will be entitled to 25% of such excess up to £9.1m of realisations or 113 pence per share. OPL's share will be increased by 5% for each £2.5m in excess of £9.1m up to a maximum of 40% for realisations in excess of £14.1m or 176 pence per share. As part of the arrangements to preserve the company's cash assets, an agreement was reached with OPL, the investment adviser, such that with effect from 1 July 2015 OPL's management fees are to be deferred until there are realisation proceeds from the remaining assets held by the company.

**DIRECTORS' REPORT**

Registered No. 03319365

**REPORT ON DIRECTORS' REMUNERATION**

The remuneration of the directors for the year ended 30 June 2016 is as follows:

	<i>Fees</i>	<i>Benefits</i>	<i>2016</i> <i>Total</i>	<i>2015</i> <i>Total</i>
	<i>£</i>	<i>£</i>	<i>£</i>	
<i>Directors</i>				
P J Crawford	30,000	5,800	35,800	43,415
W A H Crewdson	15,000	-	15,000	15,000
R H Kleiner	-	5,755	5,755	5,646
	<u>45,000</u>	<u>11,555</u>	<u>56,555</u>	<u>64,061</u>

- (1) The above figures represent the due proportion of each director's annual fees and benefits reflecting the period during the year for which each director was a director of the company.
- (2) There were no pension payments in respect of either year.
- (3) During the year, as part of the investment advisory agreement entered into between the company and Odyssey Partners Limited, Odyssey Partners Limited received fees totalling £158,400 (2015: £145,200) including the non-executive director's fee of Richard Kleiner.

The remuneration committee comprises Philip Crawford (chairman) and William Crewdson. Its terms of reference are concerned principally with the remuneration packages offered to directors in that they should be competitive and are designed to attract, retain and motivate directors of the right calibre.

**EMPLOYEE INVOLVEMENT**

The group is aware of the importance of good communication in relationships with its staff. The group follows a policy of encouraging training and regular meetings between management and staff in order to:

- provide common awareness on the part of staff of the financial and economic circumstances affecting the group's performance;
- provide employees or their representatives with information on matters of concern to them as employees; and
- consult employees or their representatives on a regular basis, so that the views of employees can be taken into account in making decisions which are likely to affect their interests.

**DISABLED PERSONS**

The group gives full and fair consideration to applications for employment from disabled persons where the candidate's particular aptitudes and abilities are consistent with adequately meeting the requirements of the job. Opportunities are available to disabled employees for training, career development and promotion.

**GOING CONCERN**

The group's principal activities, together with the risk factors likely to have an impact on its future are set out on page 7 and in note 21 on page 37.

The group has adequate financial and management resources together with long term relationships with suppliers and as a result, the directors believe that the group is well placed to manage its business risks successfully despite the current uncertain economic outlook.

**DIRECTORS' REPORT**

Registered No. 03319365

**GOING CONCERN (CONTINUED)**

The directors have also reviewed and considered the cash flow forecasts of Avanti Capital plc and the group for the next twelve months from the approval of the financial statements and on this basis, the directors are of the view that both the company and the group will be able to continue as a going concern for the foreseeable future.

**PURCHASE OF OWN SHARES**

During the year under review, the company has not purchased any of its own shares.

**POST-BALANCE SHEET EVENT**

On 12 July 2016, an announcement was made confirming the completion of the sale of Mblox which culminated in the group realising its investment for a total amount of \$3,771,458 (£2,816,665 not including the Mblox loan amount).

As announced by the company, with effect from 1 July 2016, there will be no further management fees payable to Odyssey Partners Limited, and no further directors fees payable to the existing directors.

**AUDITOR**

MHA MacIntyre Hudson was appointed during the period under review and a resolution for re-appointment will be put to the members at the forthcoming Annual General Meeting.

**DISCLOSURE OF INFORMATION TO AUDITOR**

The directors who were members of the board at the time of approving the directors' report are listed on Page 2. Having made enquiries of fellow directors and of the company's auditor, each of these directors confirms that:

- To the best of each director's knowledge and belief, there is no information relevant to the preparation of their report of which the company's auditor is unaware; and
- Each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company's auditor is aware of that information.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

Registered No. 03319365

The directors are responsible for preparing the Annual Reports and the group and parent company financial statements in accordance with applicable United Kingdom law and regulations. Company law requires the directors to prepare group and parent company financial statements for each financial year. Under that law, and as required by the AIM rules, the directors have elected to prepare group and parent company financial statements under International Financial Reporting Standards (IFRSs) as adopted by the European Union.

Under Company Law the directors must not approve the group and parent company financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and parent company and of the profit or loss of the group for that period. In preparing the group and parent company financial statements the directors are required to:

- present fairly the financial position, financial performance and cash flows of the group and parent company;
- select suitable accounting policies in accordance with IAS 8: *Accounting Policies, Changes in Accounting Estimates and Errors* and then apply them consistently;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- make judgements that are reasonable;
- provide additional disclosures when compliance with the specific requirements in IFRSs as adopted by the European Union is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the group's and the company's financial position and financial performance; and
- state whether the group and parent company financial statements have been prepared in accordance with IFRSs as adopted by the European Union, subject to any material departures disclosed and explained in the financial statements.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and parent company's transactions and disclose with reasonable accuracy at any time the financial position of the group and parent company and enable them to ensure that the group and parent company financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and parent company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## INDEPENDENT AUDITOR'S REPORT

to the members of Avanti Capital Plc

We have audited the financial statements of Avanti Capital Plc for the year ended 30 June 2016 which comprise the consolidated income statement, the consolidated balance sheet, the company balance sheet, the consolidated statement of changes in equity, the company statement of changes in equity, the consolidated cash flow statement, the company cash flow statement and the related notes 1 to 22. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditor**

As explained more fully in the Statement of Directors' Responsibilities set out on page 11, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Reports and Consolidated Financial Statements to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements, or inconsistencies we consider the implications for our report.

### **Opinion on financial statements**

In our opinion:

- the financial statements give a true and fair view of the state of the group's and of the parent company's affairs as at 30 June 2016 and of the group's and parent company's loss for the year then ended;
- the group financial statements have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

INDEPENDENT AUDITOR'S REPORT

to the members of Avanti Capital Plc

**Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016

**1. AUTHORISATION OF FINANCIAL STATEMENTS AND STATEMENT OF COMPLIANCE WITH IFRSs**

The financial statements of Avanti Capital Plc for the year ended 30 June 2016 were authorised for issue by the board of directors on **20 December 2016** and the balance sheet was signed on the board's behalf by Richard Kleiner and Philip Crawford. Avanti Capital Plc, the company, is a public limited company incorporated and domiciled in England and Wales. The company's ordinary shares were traded on the Alternative Investment Market of the London Stock Exchange up to 26 September 2016 when the company deregistered from AIM. The consolidated financial statements for the year ended 30 June 2016 comprise the financial statements of the parent company and its subsidiaries (collectively, 'the group').

The group and parent company's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union as they apply to financial statements of the group and parent company for the year ended 30 June 2016.

The principal accounting policies adopted by the group and parent company are set out in note 2 and were consistently applied for all the periods presented, unless otherwise stated.

**2. ACCOUNTING POLICIES**

**Basis of preparation**

The group and parent company's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union as they apply to the financial statements of the group and parent company for the year ended 30 June 2016 and applied in accordance with the Companies Act 2006.

The group and parent company's financial statements are presented in sterling and all values are rounded to the nearest thousand pounds (£000) except when otherwise indicated.

The group and parent company financial statements have been prepared under the historical cost convention as modified for certain financial instruments, which are stated at fair value.

No profit or loss account is presented for the company as permitted by Section 408 of the Companies Act 2006. The loss dealt with in the financial statements of the parent company is £439,000 (2015 – £431,000). The parent company has not made any other comprehensive income.

**Significant accounting judgements, estimate and assumptions**

The preparation of the group and parent company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of assets and liabilities at the balance sheet date, amounts reported for revenues and expenses during the year, and the disclosure of contingent liabilities, at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the assets or liability affected in future periods

*Judgements.*

In the process of applying the group and parent company's accounting policies, management has not made any judgements, apart from those involving estimations, which have a significant effect on the amounts recognised in the financial statements.

*Estimates and assumptions*

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are described below:

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016

**2. ACCOUNTING POLICIES (CONTINUED)**

*Financial assets designated at fair value through profit or loss*

The financial assets designated at fair value through profit or loss is valued in accordance with the accounting policy set out later in this note on page 22. In certain cases, the group is required to make estimates about expected future cash flows and levels of profitability, and hence they are subject to uncertainty. Further details are given in note 12.

*Deferred tax assets (Judgement)*

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

**Basis of consolidation**

The consolidated financial statements include the financial statements of Avanti Capital plc and the entities it controls (its subsidiaries) for the periods reported.

For the purposes of preparing these consolidated accounts, subsidiaries are those entities controlled by the group. Control exists when the company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities and is achieved through direct or indirect ownership of voting rights, by way of contractual agreement. The financial statements of subsidiaries, which are prepared for the same reporting period, are included in the consolidated financial statements from the date that control commences until the date control ceases. All intra-group balances, income and expenses and unrealised gains and losses resulting from the intra-group transactions are eliminated in full. Accounting policies of subsidiary entities are consistent with the group accounting policies disclosed here.

**Foreign currency translation**

The consolidated financial statements are presented in pounds Sterling, which is also the parent company's functional and presentation currency. Each entity in the group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Transactions in foreign currencies are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange at the balance sheet date. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation difference on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in other comprehensive income or profit or loss, respectively).

## 2. ACCOUNTING POLICIES (CONTINUED)

### Investments and other financial assets

Financial assets within the scope of IAS 39 are classified as financial assets held at fair value through profit or loss, loans and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. The group currently holds no held-to-maturity or available for sale financial assets. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit and loss, directly attributable transaction costs.

The group determines the classifications of its financial assets on initial recognition and, where allowed and appropriate, re-evaluates this designation at each financial year end.

All regular way purchases and sales of financial assets are recognised on the trade date, which is the date the group commits to purchase or sell the asset. Regular way purchases or sales of financial assets that require delivery of assets within the period are generally established by regulation or convention in the market place.

### *Financial assets designated at fair value through profit or loss*

Financial assets held at fair value through profit or loss includes financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss.

Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term.

Financial assets designated at fair value through profit or loss are those that have been designated by management upon initial recognition. Management designated the financial assets, comprising equity shares and share options, at fair value through profit or loss upon initial recognition due to these assets are part of a group of financial assets, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.

Financial assets at fair value through profit or loss are recorded in the statement of financial position at fair value. Changes in fair value are recorded in 'Fair valuation movements of financial assets designated at fair value through profit or loss'. Interest earned or incurred is accrued in 'Interest income' or 'Interest expense' respectively, using the effective interest rate, while dividend income is recorded in 'Other operating income' when the right to the payment has been established.

Financial assets, comprising equity shares and share options, are valued in accordance with the "Guidelines for the valuation and disclosure of venture capital portfolios" published by the British Venture Capital Association on the following basis:

- a) Early stage investments: these are investments in immature companies, including seed, start-up and early stage investments. Such investments are valued at a cost less any provision considered necessary, until no longer viewed as early stage or unless a significant transaction involving an independent third party at arm's length, values the investment at a materially different value;
- b) Development stage investments: such investments are in mature companies having a maintainable trend of sustainable revenue and from which an exit, by way of flotation or trade sale, can be reasonably foreseen. An investment of this stage is periodically re-valued by reference to open market value. Valuation will usually be by one of five methods as indicated below:
  - i. At cost for at least one period unless such a basis is unsustainable;
  - ii. On a third party basis based on the price at which a subsequent significant investment is made involving a new investor;
  - iii. On an earnings basis, but not until at least a period since the investment was made, by applying a discounted price/earnings ratio to profit after taxation, either before or after interest; or
  - iv. On a net asset basis, again applying a discount to reflect the illiquidity of the investment.

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016

**2. ACCOUNTING POLICIES (CONTINUED)**

- v. On a comparable valuation by reference to similar business that have objective data representing their equity value.
- c) Quoted investments: such investments are valued using the quoted market price, discounted if the shares are subject to any particular restrictions or are significant in relation to the issued share capital of a small quoted company.

At each balance sheet date, a review of impairment in value is undertaken by reference to funding, investment or offers in progress after the balance sheet date and provision is made accordingly where the impairment in value is recognised.

*Loans and receivables*

Loans and receivables are non-derivative financial assets with a fixed or determinable payment that are not quoted in an active market. After initial recognition loans and receivables are carried at amortised cost using the effective interest rate method less any allowance for impairment. Gains and losses are recognised in the income statement when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

The group assesses at each balance sheet date whether a financial asset or group of financial assets is impaired.

If there is objective evidence that an impairment loss on assets carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (ie the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through use of an allowance account. The amount of the loss is recognised in the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed, to the extent that the carrying value of the asset does not exceed its amortised cost at the reversal date. Any subsequent reversal of an impairment loss is recognised in the income statement.

In relation to trade receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the group will not be able to collect all the amounts due under the original terms of the invoice. The carrying amount of the receivables is reduced through use of an allowance account. Impaired debts are derecognised when they are assessed as uncollectable.

*Fair value*

The fair value of investments that are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the balance sheet date. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions; reference to current market value of another instrument which is substantially the same; discounted cash flow analysis or other valuation models which are consistent with those permitted by IFRS 13.

The group and the company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities
- Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016

*Cash and cash equivalents*

Cash and short-term deposits in the balance sheet comprise cash at bank and short-term deposits which are subject to an insignificant risk of changes in value – i.e. deposits with an original maturity of three months or less.

For the purpose of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts.

*Other financial liabilities*

Trade and other payable are recognised initially at fair value net of directly attributable transaction costs and subsequently measured at amortised costs using the effective interest rate method.

*De-recognition of financial assets and liabilities*

Financial assets

A financial asset (or, where applicable a part of financial asset or part of a group of similar financial assets) is derecognised when:

- The rights to receive cash flows from the asset have expired;
- The group retains the right to receive cash flows from the assets, but has assumed an obligation to pay them in full without material delay to a third party under a ‘pass through’ arrangement; or
- The group has transferred its rights to receive cash flows from the asset and neither (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the group’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the group could be required to repay.

When continuing involvement takes the form of a written and/or purchase option (including a cash settled option or similar provision) on the transferred asset that the group may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the group’s continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modifications is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the income statement.

**Provisions**

Provisions are recognised when the group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016

The expense relating to any provision is presented in the income statement net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**Operating exceptional items**

Operational exceptional items are treated as such if the matters are material and fall within one of the categories below:

- a) Restructuring costs of an activity of the group;
- b) Disposals of investments; and
- c) Abortive deals.

**Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and Value Added Taxes.

Interest income is recognised as interest accrued (using the effective interest rate method).

**Taxes**

*Current income tax*

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the income statement.

*Deferred income tax*

Deferred income tax is provided using the liability method on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary difference associated with investments in subsidiaries, associates and interest in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred income tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that the future taxable profit will allow the deferred tax asset to be recovered.

***Changes in accounting policies***

There were no new standards applied in the year.

***New standards and interpretations not applied***

The following new and amended standards and interpretations in issue are not yet effective and have not yet adopted by the European Union, therefore, have not been applied by the group:

	<b>Effective dates*</b>
Amendments to IAS 1: Disclosure Initiative	1 January 2016
Amendments to IFRS 11: Accounting for Acquisitions of Interests in Joint Operations	1 January 2016
Amendments to IAS 16 and IAS 41: Agriculture: Bearer Plants	1 January 2016
Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
Amendments to IAS 27: Equity Method in Separate Financial Statements	1 January 2016
Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2016
Annual Improvements to IFRSs 2012–2014 Cycle	1 January 2016
IFRS 14 Regulatory Deferral Accounts	1 January 2018
Amendments to IFRS 10, IFRS 12 and IAS 28: Investment Entities: Applying Consolidation Exception	1 January 2016
IFRS 15 Revenue from Contracts with Customers	1 January 2018
IFRS 9 Financial Instruments	1 January 2018
Amendments to IAS 7: Disclosure Initiative	1 January 2017
Amendments to IAS 12: Recognition of Deferred Tax Assets for Unrealised Losses	1 January 2017
Clarifications to IFRS 15 Revenue from Contracts with Customers	1 January 2018
Amendments to IFRS 2: Classification and Measurement of Share-based Payment Transactions	1 January 2018

The directors do not expect the adoption of these standards and interpretations to have a material impact on the consolidated or company financial statements in the period of initial adoption.

\* The effective dates stated above are those given in the original IASB/IFRIC standards and interpretations. As the group prepares its financial statements in accordance with IFRSs as adopted by the European Union (EU), the application of new standards and interpretations will be subject to their having been endorsed for use in the EU via the EU Endorsement mechanism. In the majority of cases this will result in an effective date consistent with that given in the original standard or interpretation but the need for endorsement restricts the group's discretion to early adopt standards.

**9. TAXATION (CONTINUED)**

(b) Factors affecting current tax charge for the year:

The tax assessed for the year differs from the standard rate of corporation tax in the UK. The differences are explained below:

	2016 £000	2015 £000
Loss on ordinary activities before tax	(1,941)	(212)
(Loss)/Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 20.0% (2015 – 20.75%)	(388)	(44)
<i>Effects of:</i>		
Movement in unrecognised deferred tax	(388)	(44)
<b>Total tax charge for year</b> (note 9a)	<u>-</u>	<u>-</u>

(c) Deferred tax

	2016 £000	2015 £000
Recognised in balance sheet:		
Deferred tax liability - Goodwill	-	-
Deferred tax asset		
Tax losses	-	-
Capital allowances	-	-
	<u>-</u>	<u>-</u>

Legislation to reduce the UK main rate of corporation tax from 23% to 21% with effect from 1 April 2014 and to 20% with effect from 1 April 2015 was enacted in July 2013. Accordingly, deferred tax balances as at 30 June 2016 have been calculated on these rates.

The group has tax losses, predominantly in the form of capital losses, arising in the UK of approximately £14 million (2015 – £12million) that are available indefinitely for offset against future chargeable gains in the group. In addition, there are excess management expenses of approximately £5.6 million (2015– £5.5 million) and a non-trade deficit of £2.2 million (2015 – £2.2 million) that are available for offset against future taxable profits of those companies in which the losses arose. Deferred tax assets of £4.4 million (2015 – £4.2 million) in respect of such losses have not been recognised in respect of these losses as they may not be used to offset taxable profits elsewhere in the group. If investments classified as 'Financial assets designated at fair value through profit or loss' were sold at their valuations at the balance sheet date, capital losses of £2.4 million (2015: £2.3 million) would arise.

In addition, deferred tax assets of £0.1 million (2015 - £0.1 million) arising on decelerated capital allowances of £0.1 million (2015 - £0.1 million) and deferred tax assets of £0.3 million (2015 - £0.4 million) arising on the carried interest provision of £841,000 (2015 - £1.775 million) have also not been recognised as there is not sufficient certainty of future profits against which the temporary difference will unwind.

**10. DIVIDENDS**

No dividends will be declared for the year ended 30 June 2016.

**11. (LOSS)/EARNINGS PER SHARE**

The loss per share calculation is based on the group's retained loss attributable to the shareholders of the parent for the year of £1.941 million (2015 – £212,000) and the weighted average number of shares in issue for the year of 8,025,752 (2015 – 8,025,752). Further information is set out in Note 17 on page 33.

The (loss)/earnings attributed to ordinary shareholders and the weighted average number of shares for the purposes of calculating the diluted (loss)/earnings per share is identical to those used for basic (loss)/earnings per share.

In November 2008, the company and its subsidiaries entered into an arrangement with Odyssey Partners Limited in relation to the management of the group's portfolio which was effected through a change to the terms of the then existing investment management agreement. The terms include a hurdle over which the carried interest has a positive value. This hurdle, based on net assets, is equivalent to 82.5p per share (a 23% premium to the price as at 4 November 2008 the date the new arrangement was effected).

The carried interest provision as at 30 June 2016 of £841,000 assumes that the group's remaining investments (including Mblox) are realised at their respective carrying values. The total amount to be paid in respect of the carried interest provision will ultimately depend on the exchange rate applicable at the time of converting the \$ proceeds into sterling.

**19. RELATED PARTY TRANSACTIONS**

In the period under review, Odyssey Partners Limited, a company in which Richard Kleiner has a material interest, provided investment advisory services amounting to £158,400 (2015 - £145,200). The group also paid £66,420 (2015 - £61,140) in respect of accountancy and administration services to Gerald Edelman, a firm in which Richard Kleiner has a partnership interest. As at the year end Odyssey Partners was owed £159,379 (2015: £nil) by the company which was included within the trade creditor balance.

The group considers its key management personnel to be the directors of the company. The compensation of key management personnel, representing short-term employee benefit, is disclosed in Report on Directors' Remuneration in the Directors' Report on page 9.

Included in provisions is an amount of £841,000 (2015: £1,775,000) which relates to carried interest that would be payable to Odyssey Partners Limited if the net assets were to be realised at their carrying value at the balance sheet date (see Note 16).

Included in Trade and other receivables is an amount of £1,131,000 (2015: £1,152,000) due from Avanti Holdings plc (see Note 13), a wholly owned subsidiary.

There are no other related party transactions.

**20. COMMITMENTS AND CONTINGENCIES*****Operating lease commitments***

At 30 June 2016 the group and the company has no commitments under non-cancellable operating leases.

***Finance lease and hire purchase contracts***

At 30 June 2016 the group and the company has no commitments under finance leases or hire purchase contracts.

**21. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The group's and company's financial instruments comprise investments, cash and liquid resources, and various items, such as trade receivables and trade payables that arise directly from its operations. The vast majority of the group's and company's financial investments are denominated in sterling.

Neither the group nor the company enter into derivatives or hedging transactions.

The fair values of the group's and company's financial instruments approximate the carrying values as at 30 June 2016 and 30 June 2015.

It is, and has been throughout the period under review, the group's and company's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the group's and company's financial instruments are investment risk, interest rate risk and liquidity risk. With the exception of the investment in Mblox, the group does not have a material exposure to foreign currency risk. The board reviews policies for managing each of these risks, and they are summarised as follows:

---

NOTES TO THE CONSOLIDATED AND COMPANY FINANCIAL STATEMENTS  
at 30 June 2016
**21. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)***Investment risk*

Investment risk includes investing in companies that may not perform as expected. The group's investment criteria focus on the quality of the business and the management team of the target company, market potential and the ability of the investment to attain the returns required within the time horizon set for the investment. Due diligence is undertaken on each investment. The group regularly reviews the investments in order to monitor the level of risk and mitigate exposure where appropriate.

*Interest rate risk*

Certain investee companies of the group borrow in currencies to match the denomination of fixed and floating rates of interest to generate the desired interest rate profile and to manage their exposure to interest rate fluctuation.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the group's loss before tax (through the impact on floating rate borrowings)

	<i>Increase/decrease In basis points</i>	<i>Effect on profit before tax 2016 £000</i>

<i>Sterling</i>	- 100	2
2015		
<i>Sterling</i>	+ 100	(2)
<i>Sterling</i>	- 100	2

*Liquidity risk*

The group's policy is to finance its operations and expansion through working capital and, in the case of investing in target companies, to raise an appropriate level of acquisition finance.

The table below summarises the maturity profile of the group's and company's financial liabilities and receivables at 30 June 2016 and 2015 based on contractual (undiscounted) payments.

The group and the company aims to mitigate liquidity risk by managing cash generation by its operations, and applying cash collection targets. Investment is carefully controlled, with authorisation limits operating up to board level and cash payback periods applied as part of the investment appraisal process.

*Credit risk*

There are no significant concentrations of credit risk within the group. The maximum credit risk exposure relating to financial assets is represented by the carrying value as at the balance sheet date.

*Fair Value*

There is no material difference between the fair values and book values of any of the group's financial instruments. Fair values of investments are discussed in note 12.

*Strategies for managing capital*

The primary objective of the group's and company's capital management is to ensure it is able to support its business and maximise shareholder value.

The non-current financial asset comprises the secured loan that was made to Mblox in July 2014 amounting to \$367,440 (equivalent amount - £234,000). As explained in the post-balance sheet event, as part of the sale of the group's investment in Mblox, the secured loan made to Mblox was redeemed to include interest and success fees of \$1,117,672 (£846,720) at the 12 July 2016.

**22. POST-BALANCE SHEET EVENT**

On 12 July 2016, an announcement was made confirming the completion of the sale of Mblox which culminated in the group realising its investment for a total amount of \$3.7 million (£2.8million).

As announced by the company, with effect from 1 July 2016, there will be no further management fees payable to Odyssey Partners Limited, and no further directors' fees payable to the existing directors.

Following a special resolution passed at the Shareholders' meeting held on 26 September 2016, the company deregistered its shares from AIM listing on 4 October 2016.

## NOTICE OF ANNUAL GENERAL MEETING

Notice is hereby given that the 2016 Annual General Meeting of Avanti Capital plc (“the company”) will be held at the offices of 73 Cornhill, London, EC3V 3QQ on the 13th day of December 2016 at 11.30am to transact the following business.
